

AUTHORS' CONTRIBUTION FORM

According to the new HEC instructions, authorship contribution is required to be provided by the corresponding author and it will be published in the Journal. The objective is to eliminate gifted authorship type practices and when a person will present his/her papers for promotion or appointment, the Selection Board can conclude the strength or expertise of the author.

Please add "Authors' Contribution" section in your manuscript before "References" and write the contribution of each author in the manuscript/research. Also, prepare the “Authors' Contribution Form” using the template given below and upload signed copy of the form along with your manuscript.

S. #	Author's Name	Contribution in the Article	Dept./Institute and University/Organization	Author/Co-authors Signature	Email Address	Cell #
